8160.TF25S, 8160.TF50S

External PT100, 4 wire temperature sensor, with two different cable lengths. Sensor is usually connected to the ANACON and used in road weather applications.

General	
Dimensions	Length 50 mm, Ø 8 mm
Output signal	Resistance
Cable length	25/50 m
Protection type	IP67
Connector	Open wires
Operating temperature	-40...80 °C
Operating rel. humidity	0...100 % RH
Accuracy	Class A

Temperature	
Principle	PT100
Accuracy	±0.3 K@0 °C
